**T ip:** When making half-square triangles, try placing a piece of masking tape on the bed of your machine, straight out from the needle. Put the bottom point of the squares you're sewing on the edge of the masking tape and sew, following the masking tape line all the way to the needle. Perfect half-square triangles every time!

August is here, along with the hot weather. It's way too warm to make a big quilt, so let us cool you down with some new smaller projects for the fall and winter.

**"Holly Glow"** is a trio of quiltlets for your tabletop or mantle. Along with the patterns, we have kits for these to make it extra easy for you. We also carry the wonderful wire quilt racks. Check them out on our website, [www.quiltricks.com](http://www.quiltricks.com).

Our second new pattern is perfect for back to school. It's called **"Computer Cache"** and it's a terrific padded case for your laptop. Of course it has a pocket on the outside for extra papers.

We are thrilled to have some of our patterns included in *Clotilde's* fall catalog and website. Keep an eye out for them!

We are traveling a great deal this fall. If you're in the area of one of our shows, please stop by and say hello! We love to meet our online friends.
