NEWS

Stimulating imaginations of quilt tricksters everywhere

Quiltrick #19:

I just finished piecing nine-patch blocks for a new quilt. I like to strip piece, but sometimes when you sew a strip the entire width of the fabric the seam doesn't stay straight. Try cutting the strip in half, and then strip piece. It will be much more accurate and there will still be very little waste.

The quilt show season is well underway. We have been in Ohio, Virginia, Maryland, Pennsylvania, North Carolina and Georgia since March. Whew! And we're just getting ready to travel to Paducah and then on to International Quilt Market in Salt Lake City with some stops at a couple of quilt guilds on the way.

Things have been busy in the studio as well. We are happy to introduce a new trio pattern, "Dinner!" I wonder if anyone can figure out how it got its name. It might just be a result of my odd sense of humor... The second trio pattern is one that all you piecers will like. It is to celebrate the Pin Peddlers' 25th anniversary (www.pinpeddlers.com). We think it's the perfect way to display all those quilt pins (or any other kind of pins) that you've collected. Let us know what you think, and if you are in the area of any of our upcoming shows, please stop by and say hello.
